

# Promoting the Excellence of Young Academics

**call for paper**

**Deadline: May 31, 2011**

## Gustav Eirich Award

**European Centre for Refractories, Höhr-Grenzhausen, Germany**

### **The Award will be offered for:**

- Dissertations and / or
- Independent research work with a scientific content
  - e.g. doctorates
  - post-doc work

The work should have been completed no longer than two years ago

### **Topics:**

- Refractories-based topics from the fields
  - raw materials
  - materials and components
  - application technologies
- Topics concerning groups of materials subsumed under the term "high-temperature materials" or in the future, under the term "modern refractories"

The award-winning manuscripts are reviewed by renowned scientists and subsequently published in "refractories WORLDFORUM".
